How to Shop

Making your purchase is simple. Once you have looked through the catalogue and made your choice, take a selection form (there are some included in this catalogue as well as in-store) and fill in the catalogue number and the quantity of the goods you require. Then take the form to a service point. Whilst you are paying, your goods will be collected from our stockroom and brought to the collection counter ready for you to pick up.

Ways to Pay

You can pay for your purchase with any of the credit or debit cards shown. You can also pay by cash or cheque and, unlike many retailers, if you have a valid cheque card, we will give you immediate clearance on personal cheques up to £500 and company cheques up to £1000 (subject to status).

Premier Points can be used as full payment, or combined with any other method of payment.

Home Delivery

Argos now offers two types of Home Delivery Service. One is on some selected items where the delivery is completely FREE - this is called ARGOS DIRECT.

The other is from our Argos Superstores only, which covers all lines (except those covered by ARGOS DIRECT) and which makes a small charge for the delivery.

Argos

TAKES CARE OF IT

Welcome to the famous Argos catalogue. We have compiled this catalogue with you in mind, to offer you a great way of shopping for a huge range of quality products, at prices you will find hard to beat.
The Argos secret is simple. We have developed a way of shopping, designed around you and for you. So all you need to do is browse through our catalogue at your leisure and select exactly what you want - Argos really does take care of it.
But this is only the start. Our buyers are committed to obtaining only the best and if any product does not meet our Safety and Quality standards, it does not get into our catalogue. For your complete peace of mind, we support our commitment to quality with comprehensive guarantees and a first class after sales service.
To give you, our customer, the best, we also have a host of services to make your shopping even simpler and more enjoyable. These include - free home delivery and telephone ordering on selected items, and Extended Product Guarantees, all of which reinforce our commitment to giving you a better service.
So, if you're looking for a huge range of quality goods and services at competitive prices - and a way of shopping which is designed around you - Argos takes care of it. The next few pages will tell you more. . . .

Premier Points

Premier Points is an exciting new long term collecting scheme developed by Argos.
Points and Collecting Cards are issued nationwide through the network of Mobil Service Stations. Each time you buy petrol or diesel fuels, Premier Points are accumulated on your personal electronic Collecting Card.
Premier Points may be redeemed through any Argos store and you need not wait until you have a set number of points or a full card.
Simply present your Collecting Card(s) when making a purchase of one or more items selected from the current Argos catalogue* and you will receive an instant saving on the catalogue price(s). You can add to your Points value with any other method of payment accepted at Argos stores.
For full terms and conditions of this exciting new collecting scheme pick up a leaflet at any Argos store or participating Mobil service station now.
* Excludes insurance services, Flying Flowers, food hampers and film processing.

EXAMPLES OF POINT REDEMPTION VALUES:		
FULL CARD	=	£5.00
2000 POINTS	=	£4.00
1500 POINTS	=	£3.00
1000 POINTS	=	£2.00
500 POINTS	=	£1.00

Argos Personal Account

There's now more than ever to choose from at Argos and with our Personal Account you can afford what you want now and then spread your payments over time.

Open an Argos Personal Account and you can
- have up to £1000 instant credit*
- purchase items when you want them.
- spread the cost to suit yourself.

Ask for an application form in-store.
APR 36.8%† (Subject to variation.)

* Subject to status. Available to most adults. Argos is a licensed credit broker.

† When payment is made by Direct Debit. A quotation in writing is available on request.

FREE HOME DELIVERY

Argos Direct -

Free Home Delivery Service

Items marked with the red lorry symbol are not available for collection from any of our stores. They will be delivered direct to your home anywhere in Great Britain (including Northern Ireland) by the FREE ARGOS DIRECT Service.
Delivery will normally be within 14 days unless otherwise indicated in the description of the item or at the time of ordering.

Order by Phone:

As well as being able to order any ARGOS DIRECT item at our stores, you can also phone our ARGOS DIRECT **FREE** Linkline ordering number. Simply call 0800 700910 to place your order using any of the major credit cards shown on this page.
You can call 24 hours a day, 7 days a week, giving your name, address, telephone number and credit card details, along with the catalogue number and description of the item you wish to purchase.
Please note: The 0800 Linkline number can only be used for placing orders for items marked with the red lorry symbol.
All our Argos stores now have examples of materials used on these products, so now you can ensure that the item you order is exactly what you want. Please ask for details at any Argos store.
NB Please remember that to ensure delivery before Christmas you need to place your order before 9th December 1991.

Superstore Van Delivery

At Argos Superstores we have gone a step further. As well as our Argos Direct Service on selected items, you can order any other item and have it delivered to your home for a small charge, within a 20 mile radius of the Superstore.
You can order by going to your nearest Superstore or you can telephone your order during normal working hours (see the back page of the catalogue for a list of Argos Superstores and telephone numbers).
All you need to do is phone the Superstore asking for the Superstore Van Delivery Department. Then quote your name, address, credit card number and item details and we'll take care of the rest.

Quality, Safety & Services

Quality

We want you, our Customer, to have total confidence that every item you purchase from Argos is SAFE, RELIABLE and of the highest QUALITY. We have therefore developed a large Quality Control team, fully dedicated to fulfilling such requirements and we believe that the time and care we take on Quality Control is the envy of other retailers.
In many cases, we even undertake to have the products we sell tested by independent test laboratories. The performance of all our products and suppliers is monitored continuously. Coupled with this care and commitment is our policy to select and stock top quality brand names that you can trust. So you see Argos really does take care of it.

The Argos Promise

The following guarantees do not affect your statutory rights.

REPAIR SERVICE · IN-HOME SERVICE · REPAIR SERVICE

If you change your mind and decide that a product you have bought does not meet your exact requirements we offer you the opportunity of returning it within 16 days of purchase, for a full refund or exchange.
We simply ask that it is returned in its original and unspoilt condition, with its original wrapping and your receipt. Please note this promise does not apply to earrings for pierced ears, food products, camcorders, pre-recorded music and videos, fresh flowers or Christmas decorations.

Argos
16 DAY MONEY BACK GUARANTEE
OUR PLEDGE OF FULL SATISFACTION

Please Note: Some of the goods which are shown in the catalogue may vary slightly if a supplier has changed or altered their specifications after the catalogue has been printed. If this should happen, we will try to help by offering you alternative goods of a similar specification and value to your original choice.
Under exceptional circumstances, we may have to make adjustments to our prices stated in the catalogue. Please check the catalogues in-store before ordering.
NB: All sizes, weights and capacities quoted are approximate.

Services

Tax Free Shopping

If you are an overseas visitor you may qualify for a VAT refund.
If you do, our tax free shopping service could save you at least 12% of the cost of your purchase. In order to qualify, you must have been in the UK for no more than 365 days in the last two years, and you must intend to leave Great Britain with your purchases, within the next 3 months. Ask in any of our stores for further details.

Hexagon Insurance

Hexagon is a special type of service for home, contents and motor insurance because it has a panel of over 80 different insurance companies.
This means that Hexagon can match up your individual circumstances with the most competitively priced and most suitable policy available from the companies on the panel.
The Insurers include some of the best known and respected names in the business.
So, for excellent insurance why not phone for a quote? See page 218 for details, or pick up a leaflet in-store.

Film Processing

We have an excellent film processing service at very competitive prices.
Envelopes are available in our stores and we can handle all popular sizes and brands of film. Your prints will be developed by experts and delivered directly to your home. Just pick up an envelope in-store or see page 257 for all the details.

AA Membership

AA

Join the AA through Argos and we will give you a free £5 Argos gift voucher. Our price of £61.25 gives you access to the world's largest motoring organisation, with a special pack including an immediate membership certificate, member's handbook, licence disc holder and official registration form.
All you need to do is complete a selection form with the following number: 750/4523, or see page 219 for further details. So, if you are after worry-free motoring, let the AA and Argos take care of it.

Safety

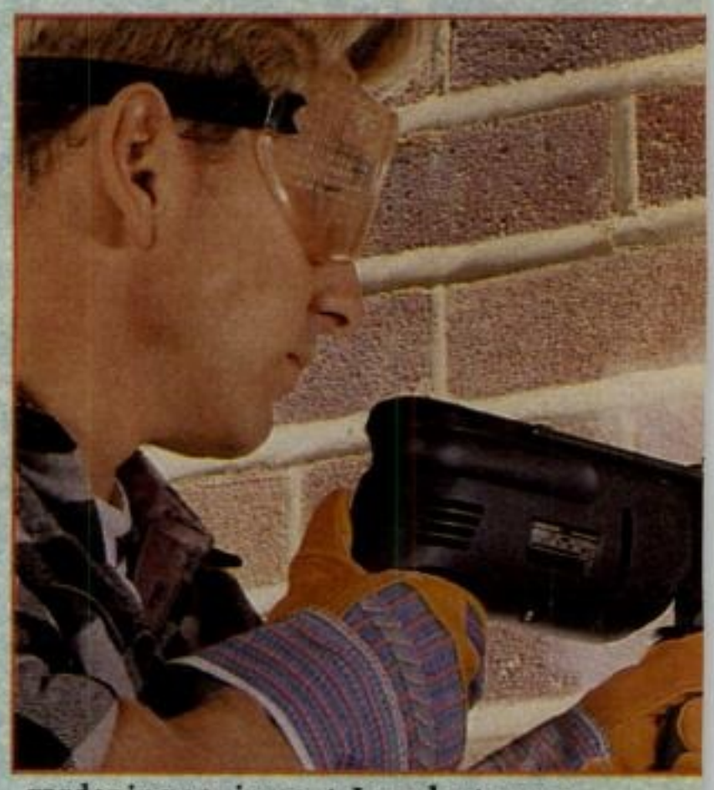
All our goods, especially nursery and toy products, are subject to strict safety regulations and we take every care to ensure that all our products are safe.

Symbols

The Lion Mark is a symbol of toy safety and all Argos toys are tested for compliance with exactly the same approved safety standard.
The "CE" mark, which appears on all Argos toys, is part of a campaign by the EEC to improve safety standards across Europe.

Accessories

Apart from ensuring the quality and safety of the products we sell, we also stock accessories to ensure your safety when using certain products. These include a circuit breaker to use with electrical products and protective kit for use with DIY and gardening equipment. In order to care for your home and family we also sell a variety of safety devices from smoke detectors to child safety products.



After Sales Care

Making sure that you are happy with your purchases, both when you buy them and when you have taken them home, is very important to us.
If a product develops a fault, simply return it within 30 days of purchase and we will offer you an exchange or a full refund. If a fault develops and the product is returned to a store more than 30 days after purchase but within the manufacturer's guarantee period, we will provide a free-of-charge repair facility, normally within 16 days. And don't forget that we can arrange to have many electrical appliances serviced in your home - so, if there is a problem, let Argos take care of it.

Extended Guarantees

To reinforce the Argos policy of selling high quality products at superb prices we are offering an Extended Guarantee scheme. This gives you the extra reassurance of knowing that you have safeguarded yourself against possible repair costs after the manufacturer's guarantee has expired, and that expert help is always available.
For a modest single payment we can arrange insurance cover for you, for up to a total of either 3 or 5 years after you have made your purchase.
Our guarantees (which are arranged through Cornhill Insurance) are available on a wide range of products - from microwaves to televisions and from midi systems to cameras.
So when you are choosing your purchase, for that extra peace of mind, why not protect yourself for the future by taking out an Argos Extended Guarantee? Pick up a leaflet in-store for details.

Argos EXTENDED GUARANTEES

Product Information

To help you select the product which is best for you, we have produced a wide range of product information leaflets. These leaflets explain some of the more complicated features of the products and help you to make the right choice for your needs.
For this catalogue we have produced leaflets covering these areas:
Elizabeth Duke - our jewellery range, Cameras, TV/Audio, Telephones and Answering Machines, Keep Fit Equipment, Power Drills, Child Safety, Microwave Ovens and Office Equipment. Look out for them in your store and see details about all these areas in your catalogue.

Argos Gift Vouchers

If you want to take care of a Birthday, Anniversary or any other special occasion, an Argos Gift Voucher could be the answer. Vouchers are also ideal for rewarding incentive and promotional programmes.
See page 362 for details. Please note that, unfortunately, we cannot exchange Gift Vouchers for cash.

THE ELIZABETH DUKE COLLECTION

THE HALLMARK OF QUALITY

The vast selection of jewellery and watches available at Elizabeth Duke are made from top-grade gems and materials. Only items which meet - and exceed - the highest specifications survive Argos's rigorous quality control procedures, and this serves as your guarantee of excellence.

A CUT ABOVE FOR CHOICE

Whether you are looking for:

*

A distinctive memento for a special occasion.

*

A boxed gift.

*

An inexpensive treat for yourself.

Elizabeth Duke provides exceptional range and choice.

SPARKLING SERVICE

Our trained jewellery staff are always available to answer questions and give advice, such as what makes one gem superior to another. We also have a comprehensive information leaflet which will tell you a range of things, eg:

What the hallmark means. * How carats are measured.

VALUABLE REASSURANCE

When you buy at Elizabeth Duke, there are three final guarantees of satisfaction:

*

The Argos 16-day Money-back Guarantee. (Earrings for pierced ears are excluded from the 16-day money-back promise. This does not affect your statutory rights.)

*

The manufacturer's one-year warranty.

*

A certificate of valuation for your jewellery (available on request).

*

For quality, choice and value,
Elizabeth Duke sets the standards.

Superbuy products have been specifically selected to either offer our customers a reduction in price from our previous catalogue or to indicate outstanding new lines.

CEYLON BLUE SAPPHIRE
This high quality stone is a softer paler shade of blue than the darker Australian Sapphire. As the stone is more transparent, light is able to reflect and refract throughout and thus gives the stone its attractive light blue colour.

CLADDAUGH
A 14th Century gold wedding ring. This charming design of clasped hands in betrothal has been used since pre-Roman times symbolising "hands in faith". The Claddaugh ring derives its name from an area in Galway, where these rings are still traditionally worn.

CLADDAUGH
A 14th Century gold wedding ring. This charming design of clasped hands in betrothal has been used since pre-Roman times symbolising "hands in faith". The Claddaugh ring derives its name from an area in Galway, where these rings are still traditionally worn.

DEAREST "A VICTORIAN SECRET MESSAGE RING"

In Victorian times, a gentleman would give this ring to a lady to show his secret affection for her. The coded message is deciphered through looking at the individual stones used in the ring. On our Dearest ring the message is conveyed using the first letter of each of the following stones.

D Diamond
E Emerald
A Amethyst
R Ruby
E Emerald
S Sapphire

ARGOS - OUTDOOR GIRL COLOUR COSMETIC COLLECTIONS

Two colour co-ordinated cosmetic collections designed to suit your personal skintone, hair and eye colour and complement your chosen outfit. Colour Analysis determines the colours that suit you and what you look best in. Everyone falls under one of the following seasonal colour pallets:

Spring: Clear warm colours, some bright, some delicate, but all with yellow undertones.
Autumn: Warm muted colours, mainly earthy, all with yellow undertones.
Summer: Soft cool colours, mainly pastels, all with blue undertones.
Winter: Dramatic stark colours, clear, cool and vibrant, all with blue undertones.
Consult the grid below to determine whether you have warm or cool undertones.

MICROWAVE OVENS

A quick, safe and effective way of cooking and heating food and drinks, and energy efficient too. All microwave ovens selected by Argos have a rotating turntable to ensure even cooking of the food, and all comply with the most recent tests on thorough heating and output standards.
Some of the terms used are explained below.

Output Power/Wattage
This is an important feature of all microwave ovens. The higher the wattage, the more capable the oven is of heating food. Either quicker times can be achieved, or greater quantities can be cooked.

Size
For family usage, an oven of 0.9 cu ft or above is preferable.

Timers
All our microwave ovens have timers, so the oven switches off automatically after the cooking period.

Delay Start/Timer
This enables the start time to be pre-set so food can be cooking while you are out, timed to be ready for your return.

Multi-Stage Memory Cooking
This facility allows food to be defrosted, cooked at a high level and kept warm on a low power level until you are ready to eat.

Auto Touch Controls
By pressing appropriate buttons the microwave oven is easily programmed to operate for a specified length of time, and at one of a number of power levels.

Auto Weight Defrost
Simply key in the weight of the frozen food and it will be automatically defrosted for the required length of time.

Grills
This facility will brown and crispen your food and give it the same appearance as conventionally cooked food.

If you are buying your first microwave oven, you may need some additional (non-metal) cookware. Select from our range on page 135.

When using your microwave oven it is very important to follow the instructions provided by the manufacturer.

CORDED/CORDLESS IRONS

These can be used with or without the cord attached. For heavy fabrics, which require full power and performance, the iron should be used in corded mode. For most other garments use in cordless mode to allow complete flexibility of movement. To maintain optimum performance when cordless, the iron must be returned to the "Powerbase" at frequent intervals.

Item nos 19-23 have thermostat control, pilot light, safety thermal cut-out, left/right hand use, water level indicator and use tap water.

Should you encounter initial difficulty with the operation of your iron, the technical staff of the following companies will be able to assist.

DUAL CONTROL: Some of the double under/over blankets featured have dual controls. This enables the two sides of the bed to be at different heat levels, according to personal need.

HEAT LEVELS: All our electric under/over blankets have 3 or more heat levels. The higher the number, the hotter the temperature.

ALL-NIGHT USE - Under/Over Blankets: We now feature a range of electric under/over blankets, B.E.A.B. approved, as suitable for all-night use, plus the normal full pre-heating facility. All our electric blankets have full overheat protection.

At Argos we offer a wide variety of beds to suit most types of sleeping habits at competitive prices. Choosing the best bed for your own requirements can be difficult. Our range covers most types of beds and mattresses available, from single divans, back rest posture beds to double divans with storage and foldaway visitors beds. When choosing your bed the combination of mattress and base play an important part.

BEDS EXPLAINED

Layezee Naturally

Traditional coil springs form the basis of the mattress. Natural layers of upholstered materials are matched to a "breathing" natural fibre insulator. The tailored outer cover, made from a durable printed fabric is placed on top to complete the mattress and base unit.

Silentnight Beds

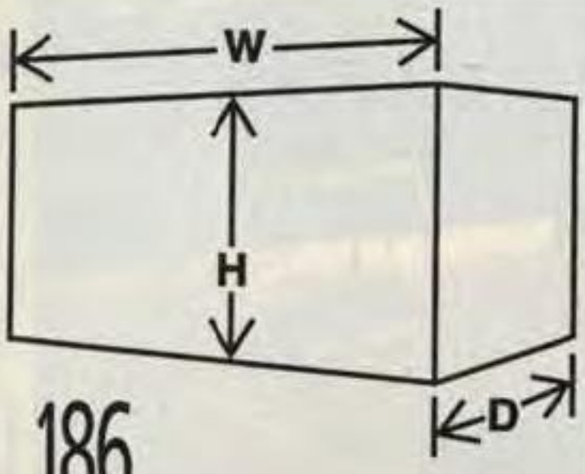
"The Ultimate Sleep System". The springing system has continuous support spirals which provide support right to the edge of the bed, maximising the sleeping area. Unique head to toe spirals prevent partners rolling together. The mattress and base have posture zones to provide maximum support, where body weight is greatest.

Silentnight Beds

Using a conventional double tempered orthopaedic spring system, and made to Silentnight's exacting standards.

Airsprung

Traditional coil sprung units are covered with a unique bonded coir fibre pad called "Fitex" which virtually eliminates spring feel. Softer upholstery layers are then placed on top to form a composite mattress of an "Orthopaedic" type. An attractive fabric ticking is then used to cover the mattress and platform top divan base unit.



Measuring Your Furniture

At Argos we use a standard system to help you choose the right sized furniture.
W = Width
D = Depth
H = Height

POWER DRILLS

We cover the full range of power drills - enough to tackle almost any job. To help you choose the tool you need, we explain some technical terms here.

Input Wattage
Indicates the power of the drill. Tough jobs need a higher rating here.

Chuck Size
Refers to the diameter of the largest drill bit shank that can be used.

Two Speed Drills
You can set the drill speed to a faster or slower speed, to suit the job in hand.

Variable Speed Drills
You have even greater versatility for different materials and jobs. Slower speeds can be set for drilling large holes, higher speeds for small holes. A dial selector, to set the maximum speed, is often built into the trigger.

Reversing
A useful feature, to rotate the drill in the opposite direction to normal. A variable speed drill can therefore be used as a screwdriver.

Torque Control
This monitors the "resistance" encountered by the drill bit, saving damage to the motor when impenetrable areas are found.

Hammer Action
Without this, masonry and concrete can be very tough! The drill bit both rotates and hammers its way into the wall, thousands of times a minute.

Cordless (rechargeable) Drills
The freedom to work away from mains power. Added features like variable speed and reverse are now available to allow these drills to also double as screwdrivers. (Cordless screwdrivers cannot double as drills - the motor lacks the power.)

Voltage
The higher the voltage of a battery, the more power potential the drill has.

SAFETY FIRST: always take care when using power tools - keep cables tidy and in good condition. Use protective gloves and goggles. Keep children away from the work area.

KEEP FIT EQUIPMENT

To help keep you in shape, Argos has pages of equipment - the best range in the high street. You can develop both your strength and your stamina using the equipment we offer.

A word of advice - if you are unwell or have had heart or respiratory trouble consult your doctor before commencing a fitness programme. Do not overdo it either! Muscle aches can be expected, but exercise should not be painful.

Our equipment can take punishment though. Our safety and quality policy ensures every effort is made to see that all products are strong, and safely constructed. Where appropriate products are tested to comply with approved safety standards.

Most items include a guide for use - to get the best from your chosen equipment please refer to this guide.

Weights
The basic exercise tool for building strength.
Vinyl discs are quieter in use than cast iron discs, but are larger, weight for weight. As they do not mark floors they are useful for indoor work-outs.

Benches
All Argos benches have been tested for stability and strength. Benches make exercising with weights more effective, allowing greater body development. Many have optional attachments to develop specific body parts.

Exercise Cycles
Our extensive range reflects the popularity of this form of exercise. They are particularly good at helping tone up muscles in your buttocks, hips, thighs and legs and they help build stamina, and aerobic capacity - the ability of the blood to absorb oxygen.
Dual action cycles allow you to pedal and "row" - exercising both the upper and lower body. With air resistant cycles the faster you work out, the greater the resistance.

Rowing Machines
Excellent for all-round exercise. Hydraulic actions give a smooth flow to the exercise of your upper body and arms whilst seat movement and pressure ensures leg strengthening.

Treadmills
These enable you to replicate jogging and walking to build stamina.

Multi-Gyms
A comprehensive fitness and body building centre for muscle development and stamina building. These machines have fully adjustable work loads. Most are large and heavy - make sure you have somewhere suitable to work out. If you're serious about keep fit then a multi-gym is what you need.

AIR RESISTANCE

Exercise equipment using air as the resistance offers the user smooth, variable resistance. With air resistance the faster you work out, the greater the resistance. The range of air resistance equipment has been aerodynamically designed for smooth, stable exercise. It provides cardiovascular conditioning achieved through upper and lower body workout, aimed at improving the heart, with no impact workout, avoiding any stress on joints.

CAMERAS

We have made a careful selection from the enormous range of cameras available today, and offer everything from a basic 110 to the most sophisticated 35mm compact. Something to suit everybody.

110's
Lightweight, easy to use cameras, with a fixed focus lens - ideal for snapshots, without any complications. Most have built-in flash for indoors. Cassette film is simply dropped in the back!

35mm Compacts
These vary from the straightforward to the very sophisticated - but all are easy to use. Sharper, clearer pictures result from the quality lens. Some of the features available are described here.

Motorized Load
Drop the new film in, shut the camera back and the film is automatically set ready for the first picture.

Motorized Film Advance
Automatically winds the film on ready for the next picture.

Motorized Rewind
When the film is finished, a switch rewinds the film. With automatic rewind, the camera senses the film end and operates the rewind motor.

Zoom Lens
You can compose your picture by adjusting the lens. Your subject will appear nearer or farther away as you "zoom".

Auto Focus
The subject in the centre of the view finder is automatically focused by the camera.

Auto Exposure
The camera adjusts automatically for the light conditions - perfect pictures!

Sensor Flash
The camera detects when there is insufficient light and automatically operates the flash.

Fill-In Flash
The flash fills in foreground shadows in bright conditions.

Film Speeds
Film speeds indicate the film's sensitivity to light - "Fast" films with a high ISO number (eg ISO 1000) will take pictures in poor light. "Slow" films (eg ISO 100) require good light - normal daylight. Compact cameras should be adjusted to the speed of the film used. Straight forward models usually have a simple switch.

DX coding
Some compact cameras have a facility which "reads" for you the speed of the film you insert. The camera automatically adjusts, avoiding human error.

CORDLESS TELEPHONES

Cordless phones give you the freedom to talk using a portable handset within a 100m range of the base unit, subject to environmental conditions. They are susceptible to interference from other phones and radio transmissions, particularly when used from a distance. Reception may not be as clear as a conventional phone and it is important to follow the manufacturer's installation instructions. The handset recharges on the base unit, therefore a telephone jack socket and a 13 amp power point are required. Cordless phones without battery back-up will not operate during power failure. **For full details of cordless phones please refer to both text and chart.** * ***Touch Tone*** **is a trade mark of British Telecom in the UK.**

Batteries are not supplied unless otherwise stated.

TELEPHONES AND ANSWERING MACHINES

The range of telephones available at Argos is one of the best on the high street. The many telephone features available include: —

Last Number Re-Dial. The phone remembers the last number dialled and with the press of a button, will automatically re-dial it.

Memories. The numbers you use most often can be stored in the phone's memory and dialled by pressing only one or two buttons.

Mute Button allows you to put the phone call "on hold" - useful if you need to talk to someone without the caller overhearing.

On Hook Dialling. You can dial without picking up the receiver. You can hear when your call is answered and you then pick up the handset to speak.

Hands Free Speech - usually combined with on-hook dialling, by pressing a button you can listen and speak with the receiver in place.

BT Star/Network Services - British Telecom are currently installing digital exchanges and these will soon be available for rental in most of the country. Facilities available include call diversion, code calling, repeat last call, call waiting, call barring, reminder call and three-way calling. In order to access these new services, your phone will need to be multi-frequency or *Touch Tone** compatible.

Ring equivalent number (REN) determines the number of telephones you can connect to a line. The maximum total REN for a BT line is 4.

Mercury - it is now possible to make calls via the "Mercury" network by dialling into the network and entering a personal code. Some telephones now feature a blue "Mercury" button which allows one touch dialling into the system. Other "Mercury" compatible telephones enable programming of the sequence into a normal memory.

Cordless Phones - give the user the freedom to talk on the phone away from the base unit, by use of a portable rechargeable handset, within environmental and range limitation.

Answering Machines.
These machines will answer your phone if you cannot answer it yourself. You need a new style BT phone socket and a nearby 13 amp mains socket. Some answering machines are combined with a telephone in a dual unit.

Call Monitoring allows you to let the machine take a message while you listen in to see who is calling, so you can choose who you answer the phone to!

Memo Facility allows you to leave a message on your machine for someone else to access on their return.

Remote Control allows you to call your own number and play back any recorded messages from any phone, anywhere. Some machines are voice activated whilst others require a control device which produces coded tones.

ANSWERING MACHINES

Buy your telephones outright and only pay rental on the exchange line. All Argos telephones are fully approved for use with British Telecom systems. They plug straight into the new style BT jack-socket.

If you don't have the new style British Telecom jack-socket, telephone your local BT sales office for information on how they can convert your existing connection point.

AUDIO/ PERSONAL STEREO

Nowadays, there are so many features available on audio equipment that not all of them are readily understood. Our aim here is to explain some of them. You can obtain more information in our showrooms: —

Compact Disc Players
The most accurate sound reproduction available - no hiss, clicks or scratches you might get from tapes or records. The player reads the "digitalised" sound from the disc by laser.
CD players have search facilities to find the track you want, and are programmable to play the disc in whichever sequence you wish.

Personal Compact Disc Players offer many of the functions provided by standard compact disc players, but are portable too!

Cassette Decks
High Speed Dubbing allows you to copy from another cassette at speeds much faster than normal playback.

Continuous Play is only available on twin-deck machines. When one tape finishes, the other can start immediately.

Dolby* "B & C" are built-in systems which reduce tape hiss, often noticeable on "quiet" music.

Personal Stereos
Anti-Roll. It eliminates play back distortion if you use the unit whilst on the move.

Bass Boost. To get a richer fuller sound, the bass boost facility enhances the lower frequency levels of the sound.

Radio Tuners
Digital Tuners scan the whole waveband, rapidly seeking the strongest signals. Once tuned in, they stay "focused" on the chosen station, eliminating "station drift". Quartz, PLL and synthesised digital tuners are more sophisticated versions.

Graphic Equalisers
These are sophisticated tone controls which allow you to "shape" the sound you hear by adjusting the tone "bands". The more bands, the greater the degree of control.

Power Output
Manufacturers' generally express the potential maximum volume of an audio product in one of three terms (R.M.S.) (M.P.O.) and (P.M.P.O.). To compare these different terms an approximate guide is:-

1W RMS ≡ 2W MPO ≡ 4W PMPO

The higher number of watts, the greater the capacity of the amplifier and the louder the sound will be.

CHILD SAFETY

At Argos we stock a comprehensive range of child safety products selected to ensure your child is taken care of both inside and outside the home. All child safety products we sell are tested to conform with approved safety standards. In addition, we have spoken to RoSPA (The Royal Society for the Prevention of Accidents) and together we have compiled safety suggestions, available from our in-store leaflet.

HOME SAFETY
Like most people you probably feel safest in your own home, but just how safe is your child? Every year, around 200 children are killed and 500,000 need hospital treatment because of what should be preventable accidents.

What can you do? Every room in the house has its own hazards and you can't be with your child 24 hours a day. Find out at what age you can expect developments like crawling, walking and climbing to occur, and what are the most serious accidents children suffer. Use this information to make your house as safe as possible. But remember, there is no substitute for supervision.

Upstairs Safety: Keep landings and stairways clear of toys to avoid tripping, and always use a properly fitted stairgate. Some children are afraid of the dark so you may find it reassuring for you and your child to use nursery lights and baby listeners. At bathtime, always test the water first before putting your child in to prevent scalding, and never leave them alone, even for a minute.

Kitchen Safety: Always a high risk area, especially when in use. Keep sharp objects, medicines and cleaning chemicals locked away and out of reach, and try to use a coiled flex for your electrical kitchen appliances. When your child is in the kitchen, it is best to use a high chair, so that your child is securely strapped in out of harms way. And never leave your child unattended.

Playtime Safety: A time for fun and learning, but care is still required, particularly in the choice of toys. Younger children should never be allowed to play with older children's toys as they may contain small parts a younger child might choke on.
If using a bouncing cradle/rocker, make sure your child is securely strapped in on a smooth non-slip surface.

OUTDOORS
Pushchairs: A convenient way of taking your child shopping, but at all times he/she should wear a safety harness that is correctly fitted and adjusted. Remember, careful maintenance of your pushchair will prolong its life, and its safety.

In-Car Safety: Over 7,500 children are seriously or fatally injured in car accidents each year. It is now law that children under the age of 14 must be correctly strapped into rear seats of cars where straps are fitted. If rear seat belts are not fitted, ensure your child is properly and securely fitted into a harness or child seat.

Argos

OVER 275 STORES NATIONWIDE

There are 3 different types of Argos Store - 'Best Sellers', 'Traditionals' and 'Superstores'. Each type has its own special catalogue which contains a different number of products.

- The Best Sellers catalogue contains over 2800 of our best selling products.
- The Traditional catalogue contains all of our Best Sellers lines and more, over 4000 products in total.
- The Superstore catalogue contains all the products which are available through our Best Sellers and Traditional catalogues, plus a further 2600 lines which are exclusive to our Superstores.

Also, if you live within 20 miles of a Superstore, you can use our Superstore Van Delivery Service, when ordering instore or by telephone (see page 3 for details).
